1. An underground fuel store is under construction in a wood near Kamien (Stein-P51/H49), approximately six kilometers northeast of Rybnik. During May and June eight fuel tanks were observed being transported from Rybnik in the direction of Kamien. The tanks were transported by the PKS (Panstwowa Komunikacje Samochodowa-State Vehicle Communications) on special trucks with trailers.
2. The size of the fuel tanks was approximately two by eight meters, and it is possible that more than eight tanks may have been transported to Kamien.
3. At the end of 1951 a railway siding was built from the Rzedowka Railway Station (Q51/Y35) in the direction of Kamien.
4. It is believed that the above fuel store is being constructed by the C.P.N. (Central Petroleum Products) and that a new airfield is to be built in Kamien.
